

Pairing Your MemorialCare Pulse Oximeter

Only pair your MemorialCare Pulse Oximeter after you've successfully connected your MemorialCare Virtual Exam Kit. You will only need to perform this setup once.

Step 1: Turn on the MemorialCare Virtual Exam Kit by pressing on the power button located on top of the device and wait for it to connect to a network.

Step 2: Insert two AAA batteries into your Pulse Oximeter.

Step 3: Connect the smaller end of the adapter cable into the Pulse Oximeter.

Step 4: Connect the bigger end of the adapter cable to the back of the MemorialCare Virtual Exam Kit and turn on the Pulse Oximeter.

Step 5: A message on the MemorialCare Virtual Exam Kit will display indicating the setup is complete.
