

*Our Foundation,*  
inspiring the art of medicine.

The new Patient Care Pavilion highlights the mutual relationship between Orange Coast Memorial and the community, and the importance of philanthropic support.

As a community-based, not-for-profit hospital, Orange Coast relies on philanthropy to strengthen its ability to acquire new technology, provide essential services and make facility enhancements. The Patient Care Pavilion is the largest and most significant expansion Orange Coast has undertaken. Support from the community provides a crucial source of funding.

We welcome and encourage investment at all gift levels by individuals and corporations. **Naming opportunities** are available for rooms, floors and other areas, to those who are interested in dedicating major gifts.

Your generous support truly makes a difference. To get involved, or for more information, please contact the **Orange Coast Memorial Foundation at (714) 378-7397** or online at [memorialcare.org/orange\\_coast](http://memorialcare.org/orange_coast).
